

# KNOW4FARM

## KNOW4FARM Project aims to:

- Increase efficiency in agricultural production and management,
- Keep pace with digitisation,
- Ensure sustainable food security,
- Adequately use resources,
- Avoid excessive use of chemicals

## Objectives

- Align agricultural VET with sector-specific needs, integrating digital tools,
- Develop digital skills for VETs through handbook, videos and interactive webinars,
- Conduct joint VET activities for skills acquisition and knowledge exchange,
- Support EU plans, strategies, and policies to accelerate digitalisation,
- Network with stakeholders to provide professional PA technology training to VET educators
